9	ATAC nominations process The AAT Council delegates the ATAC nominations process to AAL, in accordance with its normal committee appointments procedures. AAL is to make a recommendation to the AAT Council, presented along with a list of all applicants. The AAT Council will then approve all appointments.

11	AATUC The size and composition of the AAT Users' Committee will remain as for the previous AAO Users' Committee: 6 members, with a preference that this include 2 international members when possible. The nominations and appointment process will be undertaken in the same manner as for the ATAC case.
12	ATAC and AATUC membership Members of ATAC and the AATUC (previously the AAOUC) will complete their terms as appointed to those committees under the AAO.
13	New Instruments Researchers must obtain the support of the AAT Council and SSO Director before seeking external funding (such as LIEF) to build instruments.
